You may also choose to install a tailgate net, louvered or vented tailgate for ease of 5th wheel towing. Rear view camera and remote keyless entry disconnection. Open the tailgate. Between the end of the truck and tailgate, you'll have electrical connectors for the backup camera and remote keyless entry. Disconnect these connectors by pushing inward on the locking tab. The locking tab is on the side of the connector.

Connect chassis plug and bracket then tailgate plug. These parts are provided in the glovebox in new trucks. If they aren't in the glove box, check the storage bins in the rear floor if equipped or under the back seats. Tape the tailgate harness and bracket against the tailgate forward facing part. This should avoid the connected getting damaged or corroded. Remove tailgate. NB Mopar makes a point of saying in the owners manual that the tailgate should not be stored loose in the bed of the truck. Fun fact: Driving with the tailgate down or off does not increase fuel efficiency or aerodynamic efficiency. She's driven heaps of Jeeps, miles in muscle and once took her gran in a car from Japan. Engine coolant circulates through your engine to keep it cool in the summer but won't freeze in the winter. Make sure to check your engine when it is cold for an accurate reading. The video above shows you where the coolant reservoir in your Ram 1500 is located and how to add coolant. Be sure to check your owners manual to determine the correct type of fluid to add for Dodges, it will typically be in a section titled Fluid Capacities in the back of your manual. Mix the coolant with distilled water so that you have a combination of 50% coolant and 50% water. Some coolants will come premixed, that is, you don't need to add any water. Removing the coolant reservoir cap on a warm engine could cause the cap to fly off at a high rate of speed and fluid to spray out of the reservoir. Always wear safety goggles when working on your Ram 1500. Promptly wipe up any spilled fluid as it is highly toxic.

Animals love its sweet taste, so even a spilling a small amount on your garage floor can end up in the dog's stomach pretty quickly. If you notice an oily surface in your coolant, immediately have your mechanic inspect your Ram 1500 for head gasket leakage.
